Bina Nusantara University Computer Science student with a problem-solving mindset toward data analytics and business intelligence. Gained hands-on experience managing eCommerce operations and analyzing business performance data to support data-driven decision-making. Actively developing skills in Excel, Python, and SQL through hands-on practice and portfolio projects, with growing exposure to data visualization tools such as Power BI and Tableau. Eager to apply analytical thinking and technical skills to solve real-world business problems and contribute meaningfully in a data-driven environment.

SKILLS

Technical Skills:

- **Data Cleaning & Processing:** Excel (Power Query, PivotTables, advanced functions), Python (handling missing values, outlier detection, categorical encoding)
- **Data Manipulation:** Python (Pandas) – filtering, grouping, joining/merging datasets, datetime handling, feature engineering
- **Data Visualization:** Power BI, Tableau, Python (Matplotlib)
- **Statistical Analysis:** descriptive statistics, probability distributions, hypothesis testing (T-test, ANOVA, p-values)
- **Business Reporting:** Excel dashboards, PivotTables, PivotCharts, KPI tracking

Toolset: Excel, SQL, Python (Pandas, NumPy, Matplotlib), Power BI, Tableau, Git/GitHub
Soft Skills: Analytical Thinking, Data Storytelling, Stakeholder Communication, Problem Solving, Adaptability
Languages: Indonesian (Native), English (Intermediate)

EDUCATION

Bina Nusantara University | Bachelor of Science in Computer Science — Aug 2025 - Present

- Current GPA: 3.59/4.00 (40 credits)
- Relevant Coursework: Probability and Statistics, Database Management Systems, Data Structures & Algorithms, Data Mining, Artificial Intelligence & Machine Learning, Software Engineering

Dibimbing.id | Bootcamp Data Analytics & Business Intelligence — July 2026 - Present

- Learning the complete data analytics workflow, including data collection, cleaning, exploratory data analysis (EDA), and dashboard reporting using real-world datasets.
- Technical Skills: Python (Pandas, NumPy, Matplotlib, Scikit-learn), SQL, Tableau, Power BI, Excel

WORK EXPERIENCES

TOKOKU.Onlineshop — March 2026 – Present

Business Operations Intern

- **Supported** daily order operations averaging **712** completed orders/month, tracking order status, coordinating with delivery partners, and monitoring cancellation/ return cases (maintained at ~1.7%).
- **Analyzed** sales and marketplace performance data to identify opportunities, supporting data-driven decision-making.
- **Minimized** unnecessary operational costs and **optimized** advertising, **maximizing** overall profit margin through efficient budget allocation and expense control.

ORGANIZATIONAL EXPERIENCES

Teach for Indonesia Student Community (TFISC) Binus University — May – Jun 2026

Education Activist (Committee) – Education for Impact: Fostering Future Growth

- **Coordinated** with 2 volunteer teachers to deliver a plant-pot craft workshop as part of a 5-week tutoring program (math, English, arts & crafts, drawing) for children at the orphanage at LKSA Hikmah Mufakir, ensuring smooth execution and strong engagement.

HONORS & AWARDS

- **1st Winner** of **Taruna Bakti Social Innovation Award, Taruna Bakti Senior High School** 2024
- **Business & Accounting Competitions: Semifinalist (IYREF, ITB 2026), 2nd Winner (Ekuitas Accounting Day, STIE Ekuitas 2024), Honorable Mention (Accounting Fair, UPI 2024)**
